### DETAILED ACTION

1. This application is in response to the application filed on 10/17/2001.
2. Claims 1-29 are pending.

### *Claim Rejections - 35 USC § 112*

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-29 are rejected under 35 U.S.C. 112, second paragraph, as failing to set forth the subject matter which applicant(s) regard as their invention. The claims are generally narrative and indefinite, failing to conform with current U.S. practice. For example, claims 1 recites "storing in memory an association between *a version (hereinafter "current version")*" of a component of the product and *a time (hereinafter "future tick")*...; identifying *a version (hereinafter "release version")*; claim 4 recites "on passage of *said future tick (hereinafter "past tick")*". These types claimed limitations in the claims renders the claim language confusing, vague and indefinite. Since the claim language is vague and indefinite, no prior arts rejections can be applied in this office action.
